The purpose of this amendment is to answer the following questions asked as result of the above Request for Quotations:

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print)	
		Gay E. Julian, Contracting Officer	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	DATE SIGNED
(Signature of person authorized to sign)		BY (Signature of Contracting Officer)	

1. **Question:** Paragraph P0.3, Project Overview, subparagraph 3.1.3, indicates that the contractor is to accommodate the relocation of a small staff group from the Denver Federal center. Is there an address for the Denver Federal Center?  
**Answer:** Building 16, W. 6<sup>th</sup> Avenue and Kipling Street, Lakewood, Colorado 80225
2. **Question:** Is this move to the 1670 Broadway location?  
**Answer:** Yes
3. **Question:** Is this staff to be served by the 2400 IPX system?  
**Answer:** Yes
4. **Question:** Is this staff group the same staff identified in paragraph P0.5 Project Description, sub-paragraph 5.4?  
**Answer:** No
5. **Question:** Paragraph P0.5 Project Description, subparagraph 5.1, indicates that GSA will provide, install and upgrade a NEC NEAX 2400 ICS PABX, currently in GSA storage, to a 2400 IPX at 1670 Broadway. Is the providing installation and upgrading of the PABX system intended for 1670 Broadway, in entirety or in part, an open solicitation?  
**Answer:** Questions regarding the installation/upgrade of GSA's telecommunications equipment at 1670 Broadway may be referred to Julie Rideout, GSA Telecommunications, (303) 236-0950 or [julie.rideout@gsa.gov](mailto:julie.rideout@gsa.gov)
6. **Question:** Whom do we contact about this potential opportunity?  
**Answer:** See the answer to question 5.
7. **Question:** Paragraph P0. 5, Project Description, subparagraph 5.4, indicates that the contractor will relocate the existing HUD NONAPA PBX system from 1999 Broadway to the 1670 Broadway location. Is there a description of what is to be moved?  
**Answer:** Subparagraph 5.4 states: "The contractor shall 'disconnect' and then 'reconnect' for service..." This task does not call for the relocation of equipment from 1999 Broadway; only a "disconnect" and "reconnect" of service.
8. **Question:** Is there a description of within where at 1670 Broadway it is to be moved?  
**Answer:** NA see question #1 above.
9. **Question:** Will this system again serve the NONAP staff?  
**Answer:** Yes, by means of a "tie-line" between 1999 Broadway and the new upgraded switch at 1670 Broadway.
10. **Question:** Is there a drawing of the components and telephone locations of the new location so we can give you exact wiring costs?  
**Answers:** The building management company has contracted the responsibility of installing all telephone station cabling to the power pole. The company awarded this contract will bring cable down the power pole and through the system furniture raceway and install a jack at the workstation or other locations.
11. **Question:** Are each of the phases cut-overs to be done outside of normal business hours.  
**Answer:** The outside trunking will be performed in a final phase cutover on a weekend.

12. **Question:** What is the manufacturer, model and identification of the system furniture workstations?  
**Answers:** Herman Miller Action Office 2 (approximately 392 workstations), Herman Miller Ethospace (approximately 3 workstations), Steelcase Concepts (approximately 30 workstations that will have telephone lines)
13. **Question:** Are un-occupied system furniture workstations to be wired and jacked?  
**Answer:** The approximate 425 systems furniture workstations identified in question 12 above shall be cabled and jacked; whether they are occupied or not will be transparent to the contractor.
14. **Question:** Are the HUD provided cable plans available now?  
**Answer:** No. Reference 6.1, "At contract award HUD will provide a draft of the move-in schedule and its cable plan and key data sheets."
15. **Question:** What is the total number of faceplates and RJ11 dual jacks to be installed?  
**Answer:** Approximately 550
16. **Question:** How can site surveys be requested and scheduled?  
**Answer:** HUD sees no reason for potential contractors to view the building shell as the contractor awarded this service in not installing the cable. The contractor shall pick the cable up from the floor and run it to the workstations, terminate cable at all locations, telephone closets, etc. At this time, the walls, furniture and cable are not in position, so there is nothing for potential contractors to see.
17. **Question:** Subparagraph 1.1 indicates the landlord is placing the cable from the closet to the work area and the contractor is to run the cable from the work area to the workstation. Subparagraph 3.2.1.4 indicates the contractor is to run cables from the jack to the IDF (closet). Would you please clarify?  
**Answer:** The lessor is installing the cable from the telephone closet location to the general work area location. The contractor shall finish installing both ends of the cable, one cable end is terminated in the telephone closet, the other cable end shall be run to the jack location.
18. **Question:** Is dial-in capability and availability into the telephone switch (es) for configuration and port assignments available now for bidding purposes?  
**Answer:** In lieu for dialing into HUD's switch, see attached Excel file containing HUD's NEAX 2400 PBX bay face that shows configurations in the switch (stations, cards, ports, etc.).
